One click to the cheapest ticket

In use throughout Switzerland

Customer-friendly interface

FAIRTIQ is "public transport made easy". No more hassle to get the right ticket at the vending machine or in the app. With the FAIRTIQ app this is done automatically with just one click. Thanks to "Check-in/Assisted Check-out technology", the journey is recorded by geolocation with a tap on "Start". A second tap after the trip ends the journey and the optimal ticket will be charged. An automatic reminder minimizes forgotten check outs. Since the

launch in april 2016 together with three transport companies, new partners have been constantly added. FAIRTIQ now has 21 partners in Switzerland, including Swiss Federal Railways, and can be used throughout Switzerland for all public transport. The use could be quintupled within a year. On the basis of high scalability, FAIRTIQ strives for an extensive international coverage. Contracts have already been signed in Germany, Austria and the Netherlands.
