The “ELL Vectron”

European locomotive leasing “ELL Vectron”

The European Locomotive Leasing Group (ELL), operating throughout Europe, with headquarters in Vienna, has currently 40 employees and is specialised in leasing modern AC and MS locomotives along European corridors, assuring a remarkable availability rate. The “ELL Vectron” is known for its very own spare parts inventory, the ELL Academy in terms of Energy Saving workshops and Expert Trainings, ELL train drivers and the lately optimized maintenance program. Maintenance 4.0 is a key to the ELL Group and with every further month of operations, the ELL fleet provides new findings in terms of predictive maintenance. First results are currently used in the optimized maintenance manual. This package of additional services offers customers the unique opportunity to remain competitive in a challenging market.
