Audio solutions for security and passenger information

Sound solutions for train systems: Highest level of quality and security

ATEIS Europe is exhibiting its innovative and flexible audio solutions to ensure security and passenger information. With 30 years of experience in research, development and manufacturing, ATEIS is a leading brand of the Public Address and Voice Alarm (PA/VA) market. The company offers solutions for transportation providing Voice Alarm systems certified to the EN 54 standards and PA systems which ensure the public information. With the TERRACOM brand ATEIS introduces its latest solution, the On-Train Communications System for Railway and Public Transport. This system allows paging and full-duplex intercom between passenger, train driver and or the Operations Control Centre.
